The Maricopa County Juvenile Probation Department Speakers Bureau

Extending a link to the community...

By increasing
awareness, we seek
to build upon our
community assets
one student, one
teacher, one
parent, one citizen
at a time.

Maricopa County Juvenile Probation Department

SPEAKERS' BUREAU

"So what is going on with kids today?" you may ask. It seems as if all you ever hear about kids involves

- Drug & Alcohol Abuse
- Gang Violence
- School Threats
- Truancy & Drop-out Rates

Where can you learn the facts about today's youth? The Juvenile Probation Department offers a free public service throughout Maricopa County where you can learn more about the issues facing our youth and families.

We provide accurate information about Arizona's Juvenile Justice System and explain the kinds of help that is available to youths, parents, victims, and communities. We also offer diverse training opportunities ranging from violence prevention and anger management to parenting and school safety.

Our aim is to increase awareness and understanding of the founding principles of the Juvenile Court: **Intervention, Rehabilitation, & Prevention.**

Where do we begin?

Building for the Future

In striving to deliver services that provide safety, accountability, and crime prevention, the Juvenile Probation Department invites the community to become an integral part of our children's future within Maricopa County.

Learn more about

- ◆ Becoming an active member in the fight for justice.
- ◆ Helping youth become successful after making poor choices.
- ◆ Intervention programs that work with teens having substance abuse issues.
- ◆ Improving communication as a parent of teenagers.

Through presentations, we help others learn about the financial, social, and physical costs of violence. In turn we learn from our audience how we may better serve our community in the best manner possible.
